Dear Sir,

Re: Market Release - Trading Update

As indicated at Wotif.com Holdings Limited's (**Wotif.com**) Annual General Meeting held on 23 October 2006, room night growth* for the first quarter of FY2007 was up more than 50% on the same quarter last year. Wotif.com noted that any variation from this trend resulting from the introduction of the 28-day booking window in October 2005 was not expected to be obvious until November 2006 sales results were available.

Wotif.com can now confirm that it achieved room night growth of approximately 40% in November when compared with the same month last year. The Company's performance in October delivered more than 45% growth in room nights compared to October 2005. On the basis of these results, the financial year-to-date growth is more than 45% above the same period last year.

Yours faithfully

Robbie Cooke
Chief Operating Officer/Company Secretary
